

How-To Create a Candy-Money Lei

UH Elaine Sinsuan

Supplies list:

Cellophane wrap
Curling gift ribbon
Scotch or clear tape
Scissors
Ruler
Bags of candy
Dollar bills

Instructions:

1. Create the money flowers. Fold dollar bills into an accordion style. Fold in half then tie a 12" ribbon around the middle. Fold out into a circle shape then tape the ends. Continue to create a few more.
2. Create the lei with cellophane & candy. Cut the cellophane measuring 60-63" X 8" (sized for teen & adults, shorter for a child). Line up candy into the cellophane in a straight line down the middle. Fold cellophane over the candy and secure with tape. Tie ribbon (12-15") into each section of the candy, starting in the middle. Repeat until all the candy has been tied up.
3. Finishing the lei. (Always start in the middle.) Optional: add a secondary ribbon color into each section of the candy-money lei. Tie one money flower into each section of the candy, starting in the middle and then one for each side to make the design even. After tying everything together, curl the ribbon stands with a pair of scissors. Tie the necklace together. All done.
